Objective To obtain employment in a software development and engineering related position.

Education Missouri University of Science and Technology December 2018  
**B.S. Computer Science** **GPA: 3.63 / 4.0**

Relevant Courses	Software Engineering	Discrete Math	Analysis of Algorithms
	Data Structures	Operating Systems	CompSci Entrepreneurship
	Introduction to Algorithms	Theory of Computer Science	Programming Languages
	File Systems and Databases	Numerical Methods	and Translators

Experience Personal Projects St. Louis, MO  
**Web Developer for Art Glass Unlimited** April 2017 - Sept 2017

- Designed a responsive mobile-first front-end to improve user experience, web presence, and ensure cross-browser compatibility.
- Implemented media uploading capability through Django and PostgreSQL to allow for easy content updates without the need of technical expertise.
- Ensured correctness of back-end functions through the use of automated test cases.
- Practiced Agile development through continuous improvement of the website based on company preferences discussed in frequent meetings.

Association for Computing Machinery (ACM) Rolla, MO  
**ACM Sig-DOTCOM Member** January 2017 - Present

- Refine web development skills in a fast-paced, team-based environment.
- Assist in the development of the ACM organization's website using both front and back-end web technologies.
- Collaborate with a fluctuating team in order to solve complex problems through efficient, effective, and flexible solutions.

### **ACM Sig-Comp Member**

- Sharpen problem-solving skills through rigorous programming challenges.
- Exercise various approaches to problem solving with team members.

Computer Skills	Python	PostgreSQL	JavaScript	HTML/(S)CSS	Android Studio	Java	Git
	Django	MySQL	jQuery	C/C++	Linux/Windows	XML	CLI

Honors Dean's List 5 Semesters  
Missouri Miner and Alumni Scholarships
